

A Word of Caution

You must not expect to find relief from all foot troubles by merely "buying" an arch support or some other appliance and putting it in your shoe.

Many conditions of the feet need treatments by a Chiropodist and at times require medical attention.

I have made a careful study of all matters pertaining to foot troubles, including weak feet, fallen arches, painful callouses, etc.

When a condition of the foot requires a mechanical device I use the

WIZARD Lightfoot System of Foot Correction and carry a full line of the Wizard Arch Builders and appliances.

THE DIAMOND BRAND. Ladies! Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold wrapper. Boxes, sealed with Blue Ribbon. Take no other. Buy of your Druggist. Ask for CHICHESTER'S DIAMOND BRAND PILLS, for 25 years known as Best, Safest, Always Reliable. SOLD BY DRUGGISTS EVERYWHERE.

Boys Win Prizes For Keeping Maple Sugar Account

H. P. Young, farm management demonstrator, University of Vermont Extension Service, announces the winners of the special cash prizes offered last spring for the best kept accounts in maple sugar production. This is a part of a plan suggested by Mr. Young in conference with the state club leaders to make more effective and efficient a system of farm accounts. The same account forms prepared for adult maple sugar makers were placed in the hands of boys and girls on the farm interested in maple sugar production. These young people might be club members or not. They could do the sugar production work alone or work with their fathers, or simply keep their accounts—any combination if the accounts were faithfully kept. Books were prepared by the University Extension Service and distributed by the Extension agents in the several counties.

The plan was placed before the committee on agriculture of the Vermont State Bankers' Association. They approved of it and set aside \$35.00, which was apportioned into seven special cash prizes.

About 100 boys and girls expressed interest in the plan. Sixty asked for account books and 37 actually sent in reports.

Right here it is of interest to quote Mr. Young: "About an equal number of adults submitted the same kind of accounts. In general it might be said that the boys and girls kept rather better accounts than their elders, which simply goes to show that it is hard to teach old dogs new tricks."

These young Vermonters are the winners: first prize, \$10.00, Howard and Donovan Houston, Cabot; second prize, \$8.00, William McCormick, Pittsford; third prize, \$7.00, Robert Macomber, Westford; fourth prize, \$4.00, Kenneth Stevens, West Glover; fifth prize, \$3.00, Archie Bryant, Wolcott; sixth prize, \$2.00, Maurice Fish, Ira; seventh prize, \$1.00, Harold Blakey, Underhill.

Bold Bandits

Hold Up Lincoln Car in Danville on Roosevelt Trail

Three boys, the oldest not 21, stole a Cadillac car at Fitchburg, Mass., and started for Canada to get a load of booze.

They found on reaching "the wet land" they did not have money enough to get the booze, so broke into a store and stole a lot of furs and other goods to take back.

Still short of cash they held up the Lincoln car and party as told in the item below:

A boy less than 20 was arrested and lodged in jail at St. Johnsbury Friday, following a daring hold-up and robbery of a car near West Danville containing Mr. and Mrs. M. J. Warner and several other parties from Connecticut on their way from Exeter, N. H., to Waterbury over the Roosevelt Trail. The two other boys with him escaped. He refused to give his name, but said his home was in Worcester, Mass.

The arrest of the two other young men connected with the hold up and robbery is expected at any hour, as the police at Worcester, Mass., reported to High Sheriff Wilbur Worthen that the Lincoln coupe, with George Mills of John street, Worcester, and L. R. Bourbeu of Granby, P. Q., who held up the New Haven tourists, were in Worcester with the car and that every effort was being made to apprehend them. A dragnet has been set out through Central Massachusetts and it is believed the two young men will soon be behind the bars.

The report from the Worcester police shows that the two men must have turned south immediately after reaching St. Johnsbury, and in their speedy car eluded the officers to the south and made good their escape down the Connecticut valley road either on the New Hampshire or the Vermont side.

Details of the hold up since learned show that the young men were engaged in rum running and that they had run short of money which caused them to hold up Milton J. Warner and his party from New Haven and after robbing them escaped with his new Lincoln coupe.

The young man arrested and held in jail here is Edmund McGourty, 20-year-old son of Mr. and Mrs. Charles H. McGourty of Worcester, Mass. His father is a chauffeur and it was the son's knowledge of cars that caused him to be drawn into the party to run the car.

Lake Hotel Gets Stiff Fine

Last week Deputy Sheriff Noble J. Sanford arrested Frank Meehan, proprietor of Meehan's Lake Dunmore Park, on a warrant charging him with furnishing intoxicating liquor. He was brought to Middlebury and taken into Addison county municipal court before Judge Albert W. Dickens. He pleaded not guilty, waived examination, and was held in bail of \$300 for his appearance on October 24, which he furnished.

The student body of Norwich University will publish a bi-weekly paper.

50c will pay for 13 weeks in Vermont

Mr. and Mrs. Elmer Bailey of East Crafts-bury visited Mr. and Mrs. C. W. Griffiths Sunday.

Mrs. Alice Bailey and Mrs. Amy Ingalls spent the week-end with Mr. and Mrs. Dennis Gallup.

Mr. and Mrs. Milford Denton and Mrs. G. Manley were business visitors in Morrisville recently.

Mrs. Fayette Warren and little nephew were guests of Mrs. Alice Knight one day last week.

Mr. and Mrs. Ernest Bailey and two children, Arthur and Howard, were in Underhill Saturday.

Mrs. Frances Wheeler is visiting her daughter, Mrs. Flora Clowes, in St. Johnsbury for a few days.

Mr. and Mrs. Carroll Morrill and daughter and friend of Morrisville visited their home here Sunday.

Emerald Place has let his farm to Archie Stoddard and gone to Morrisville to work for C. H. A. Stafford.

Mr. and Mrs. Walter Whitcomb of the village were recent visitors at the home of his sister, Mrs. P. R. Griggs.

Mr. and Mrs. John Griffiths of Waterbury spent the week-end with their parents, Mr. and Mrs. C. W. Griffiths.

Mrs. P. G. Griggs and son, Wendell, went to St. Johnsbury Thursday. Mrs. Griggs attended the teachers' convention.

SHORT STATE STORIES

Montpelier had a flurry of snow Friday morning, but it did not whiten the chin of Mt. Mansfield.

C. C. Campbell of Barnard narrowly escaped being electrocuted when his team ran away last week and broke down a high power electric pole and the wires fell all around him and the team, which was cast and held under the broken pole.

Grant Clark Finds Missing Relatives After 20 Years

Grant Clark, an employee at the C. H. Goss garage at St. Johnsbury, has found his father and three brothers, whom he had not seen since he was nine years of age. Mr. Clark was four years old when his mother died, leaving four little boys and the father. The latter not being able to keep the family together, put the boys in an orphan's home in Burlington. They were later taken by different families. When Grant was 14 he became dissatisfied with his home and ran away, making his way to Montreal, and since that time had heard no word from his father and brother until recently, while in Burlington, he visited the orphan's home and found the names of the families to which his brothers had been sent. Learning that one was in Woodsville, N. H., he went there and found his brother, Harry, an engineer on the B. & M. railroad. From Harry he learned that his father was living in Melrose, Mass., while one brother, Walter, a musician, lived in Montpelier, and is also an engineer on the M. & W. R. railroad. The third, Lloyd, is a motor mechanic in Buffalo, N. Y.

Auto Parties Sunday Were Numerous—The Drouth

A trip to Albany, through Crafts-bury Sunday, disclosed the effects of the great drouth. Brooks and streams were all very low, some entirely dry, no water in Hardwick Lake, only a small brook running through it. Rain is surely needed. But we never saw grass in pastures and meadows so green. No hard freezes.

F. D. Lathrop of Williamstown fell from a load of wood last week and broke his neck.

Stockbridge has no legally nominated candidate for representative as two men had each 26 votes. The law provides that in such cases the republican town committee shall decide which name goes upon the ballot, but Stockbridge has no committee, either republican or democratic.

Pointed Paragraphs

Printing that will attract attention and put your advertising in a class by itself—printing that contains originality in conception and excellence in its execution—this quality of originality and individuality characterizes all the printed work we turn out.

Horticultural Hints

PREPARE FRUIT FOR MARKET

Tentative Standard Grades Will Do Much Toward Abolishing Existing Confusion.

(Prepared by the United States Department of Agriculture.)

Good prices ordinarily are not obtained for inferior products, and the best of marketing facilities cannot overcome the handicap of indifferent handling and packing methods on the part of the grower or shipper. Confusion, dissatisfaction and lack of stability in the markets are caused, in a large degree, by carelessness in the preparation of fruit for the market, say specialists of the United States Department of Agriculture, bureau of markets.

Success in marketing strawberries depends to a large extent upon proper picking, grading, and packing. Strawberries of a dependable grade and pack inspire in the trade a confidence that is reflected in a greater demand and higher prices for the product. It is said. To furnish growers, inspectors, and buyers with fairness to each other and to themselves, the bureau of markets has recommended grades, which include what seem to be the best features of the grading rules found in use in the various shipping sections throughout the United States.

The first grade, which is known as U. S. Grade No. 1, consists of firm strawberries of one variety, with the cap and a short stem attached. They must not be overripe, underripe, underdeveloped, decayed, or moldy, and shall be practically free from foreign matter and from damage caused by sand, moisture, disease, insects, or mechanical means. The minimum diameter is set at three-fourths of an inch. In order to allow for variations incident to careful commercial grading and handling, 10 per cent, by volume, of the berries in any lot may be under the prescribed size, and, in addition, 5 per cent, by volume, of the berries in such lot may be below the remaining requirements of the grade.

U. S. Grade No. 2 consists of strawberries that do not meet the requirements of the first grade and do not contain more than 8 per cent, by vol-

Pickers Bring Berries to Packing Sheds for Grading and Packing.

ume, of berries that have been seriously damaged from any cause.

When packed and shipped in crates, the boxes should be well filled and the following information plainly and neatly marked on the end of each crate: The grade name—U. S. Grade No. 1, or U. S. Grade No. 2—the name of the variety, and the grower's name and address.

Strawberries that do not conform to the specifications of one of these two grades ordinarily are not high enough in quality to be shipped. When stock that does not meet the requirement of the U. S. Grade No. 2 is shipped, it can be sold only on the basis of the general quality of each individual shipment. The wide variation in value of the different lots of such undergrade stock would preclude the possibility of placing them in definite grades. In the determination of grades for strawberries the factors to be considered are size and quality.

The size of strawberries varies widely with the section and with the variety. However, as size normally would be considered as much as, or more than, any other factor in connection with grades, the minimum size for the No. 1 grade must be definitely stated. In districts where two grades are recognized, size is usually the main difference between them. While it is not practicable to separate all the different sizes in the same manner in which boxed apples or oranges are sized, more careful attention is needed in order to prevent boxes filled with small berries from being mixed with those of desirable size in the shipping crates.

Berries that are water-soaked or have the least indication of decay should not be shipped, and those which in any way have become bruised, crushed, cut, or otherwise damaged for shipping should be kept out of the boxes.

SOIL FOR RASPBERRY PLANT

Will Thrive Best on Sandy or Clay-Loam if Well Drained and Given Plenty of Plant Food.

The raspberry plant will grow on almost any soil; yet it has its likes and dislikes and will do best on a rich, sandy or clay-loam soil if well drained and supplied with plenty of plant food and manure. It will fail if planted on soil that lacks proper drainage and on which water stands for any considerable time at or near the surface.

Firestone

GUM-DIPPED CORDS

Most Miles per Dollar

Everywhere You Hear It ~
Firestone Builds the Finest Cords

HARDLY a day goes by but some one goes out of his way to tell us that Firestone Gum-Dipped Cords are the best tires built.

Cords—as only Firestone builds them—will give you many extra thousands of miles of wear. And for fall and winter driving there's nothing like them. The strong, resilient Firestone carcass of gum-dipped cords, can stand the hardest punishment.

With the reputation Firestone Cords hold, it is not surprising that so many motorists in this community have made them standard equipment. The demand for Firestone Cords in the last few months has broken all records.

Prices were never so low as they are now. Perhaps never again can mileage be sold so cheaply.

Decide now that you will get Most Miles per Dollar. Drop in any time and let's talk tires.

F. LACKARD & SON, Morrisville
